# Highlights

## 6 ft of extra cable length

6 feet of extra cable length extends the length of your existing cable and gives you much more room to organise your workspace.

## Quality construction

Quality construction uses only top grade materials to create products of extended durability.

## Gold-plated connectors

Gold-plated connectors provide better conductivity by lowering contact resistance. They also prevent connector deterioration through oxidation.

## Corrosion-resistant connectors

Compressed brass with 24K gold-electroplated connectors creates a secure and extremely durable connection that optimises signal quality and delivers the best picture and data transfer.

## Flexible PVC Jacket

Flexible PVC jacket provides protection to the delicate core of the cable. It also offers extended durability and ease of installation.

## Moulded ends

Moulded ends prevent fraying and extend the life of your cable.

## Moulded thumb screws

Easily turn the connectors with your fingers. No screwdriver or tools are required.

## Rubber strain relief

Rubber strain relief provides a secure yet flexible juncture between the cable and the plug.
